

Dear Secretary of State Bowen:

Thank you for being an important voice for transparency in elections. I used to live in California, and I supported your campaign for Secretary of State, because I knew of your strong support for election integrity.

I'm writing to you to ask you to please support AB 852. I think this bill will set an important precedent regarding open elections for other states. I live in Maryland now, and as you may know, our whole state has standardized on paperless Diebold DREs. This is a terrible system. I think if California passes AB 852, it will set an example for Maryland and other states to follow. Please consider the impact you can have on election integrity nationwide!

Best regards,

Laura Perkins
